

# Report on **Swachhta Abhiyan**

We would like to mention that Institute has taken several steps as cited below for Swachhta Abhiyan and being maintained regularly.

1. HRI is most environments conscious campus with perfect eco-friendly environment. We have our own sewage treatment plant and waste water from that is recycled. The quality of treated water gets checked time to time from laboratory. This water is being used in gardening work by sprinklers to keep the campus green.
2. For disposal of garbage, dustbins are placed at several different locations in campus. Garbage collected in dustbins is disposed – off from the campus regularly by outsourced agency.
3. Some pole mounted small dustbins are also placed at different location in campus so that Institute members/outsideers even children use them easily of throwing small waste stuff.
4. Office rooms, toilets etc. are cleaned daily (Toilets twice a day).
5. Aesthetic view of the campus is always ensured, cleanness in canteens, toilets & Guesthouse Mess is ensured all the times.
6. Time to time scrap of Institute is disposed by auction/ other mode.
7. Repainting of kitchen of mess and pantry is done on regular interval in view of hygiene. The painting in housing/common area is also done after due minimum interval period in a phase manner as & when required.
8. Some of photographs are attached in above reference.
