

Construction Work at the Campus

1. An exercise for Invitation of Expression of Interest for Project Consultancy Services was done. Based on that five parties were selected. New tender was given to all selected parties for detailed engineering consulting services for the work. After finalization of tender construction activities will start for the following buildings (Hostel-3, Institute expansion, Community Centre Annexe and Engineering building).
2. Since power roistering is increasing every year therefore Institute is now trying to set 33 KVA uninterrupted power supply line directly from 132 KVA Substation (Hanumanganj). In this connection Institute has deposited the estimated amount given by UPPCL for further action.
3. Following miscellaneous works were carried out during this financial year:-
 - Marble flooring for auditorium lobby.
 - Construction of room for ATM.
 - Construction of 1.5M wide pathway along the boundary wall.
 - Development of new lawn.
 - Providing and fixing one additional wire mesh door shutter for Type-E houses.
 - Providing and fixing enclosure around electronic security machine in Library building.
 - Supplying and fixing 2mm thick PVC tile flooring in conference room of Institute building.
 - Fencing of HRI land near river side of Ganga with barbed wire.
 - Providing and fixing fire hydrant near new Type-E quarters.
