

Report on Swachhta Campaign

In connection with the Swachhta Campaign, the following steps have been carried out and are regularly implemented:

- 1. Recycling Wastewater:** HRI has its own sewage treatment plant, and the wastewater is recycled. The quality of treated water is periodically checked in the laboratory. This water is used for gardening through sprinklers to maintain the campus greenery.
- 2. Maintaining Campus Aesthetics:** The campus's aesthetic appearance is always ensured, and cleanliness is consistently maintained in canteens, toilets, and the Guesthouse Mess.
- 3. Daily Cleaning:** Office rooms, toilets, and other areas are cleaned daily, with toilets cleaned twice a day for added hygiene.
- 4. Record Management:** A shredding machine has been installed in the office for the disposal of outdated records. (Image Attached)
- 5. Garbage Disposal:** Dustbins are strategically placed at multiple locations across the campus. Garbage collected in these dustbins is daily disposed of by Prayagraj Nagar Nigam. To ensure better hygiene, a larger dustbin is kept inside an enclosure to prevent garbage from spreading in the open area during collection or disposal. (Photograph of the enclosure is attached.)
- 6. Convenient Dustbins:** Pole-mounted small dustbins have been installed at various locations on the campus to make it easier for institute members, visitors, and even children to dispose of small waste items.
- 7. Regular Painting:** The kitchen of the mess and pantry are repainted at regular intervals to maintain hygiene. Common areas and housing are also repainted periodically in a phased manner as and when required.
- 8. Eco-Friendly Environment:** HRI is one of the most environmentally conscious campuses, maintaining an eco-friendly atmosphere. Regular cleaning drives are organized on a voluntary basis by institute members, including faculty, staff, and students.
- 9.** Some photographs have been attached as references for the above points.
